Mindin' my business y'all, one day like all others
Watchin' at the BET booty y'all, I ain't botherin' nobody
In walks my lady though, lookin' for drama yo
Heavin' and screamin', I don't know exactly what I did

Back peddle, double talk, cuss me up
Then you walk
Do your sisters call you up, beg you back again

Then I take you out, spend some cheddar
Love you up till you feel better
It last a week or so
But that's the way it goes on the merry go round

I'm just a simple man, simple dreams, simple plans
So I cannot understand the ways around your mind
I don't got telepathy for the vibes you been sendin' me
They used to be offending me but now it rolls off my
spine

Back peddle, double talk, cuss me up
Then you walk
Do your sisters call you up, beg you back again

Then I take you out, spend some cheddar
Love you up till you feel better
It last a week or so
But that's the way it goes on the merry go round

Girl I know your game, yo
No, I ain't gon scream and shout no
I'ma go and watch some TV
Like I'm gon sleep on the couch

Though I'ma wait till 3 a.m yes
'Cause by then you won't be vex
Next I'ma sneak beneath the covers
And we'll have some make up sex, yes

Back peddle, double talk, cuss me up
Then you walk
Do your sisters call you up, beg you back again

Then I take you out, spend some cheddar
Love you up till you feel better
It last a week or so
That's the way it goes

Sing it
Back peddle, double talk, cuss me up
Then you walk
Do your sisters call you up, beg you back again

Then I take you out, spend some cheddar
Love you up till you feel better
It last a week or so
That's the way it goes, on the merry go round

Just another day, on the merry go round
Love goes up and down, on the merry go round
That's what I found, on the merry go round, yeah
