By neale and mcollum

How can I tell you all the reasons why  
You're the meaning in my life?  
Your love is a precious gift.  
The way you take the time to show me  
Such sweet affection  
Makes me want to be the man  
Who gives you everything  
Guaranteed.

You're the treasure I adore.  
I couldn't ask for more.  
Never gonna give your love away.  
You sparkle and you shine.  
You fill my head like wine.  
Never give your love away.

How to describe the fire in your eyes  
And the mystery inside?  
You're here beside me in all my dreams.

And we will fly.  
It's summer in the sky  
And the sun, of course, is you.  
I only pray you'll never leave.

You're the treasure I adore.  
I couldn't ask for more.  
Never gonna give your love away.  
How you sparkle and you shine.  
You fill my head like wine.  
Never give your love away.  
I'm the moon and you're the sun.  
Tell me I'm the only one.  
Never gonna give you're love away.  
You're a diamond in the light.  
If you go I can't be right.  
Never give you're love away.
