Emmanuel thinks about the girl He knows all too well
She's got him a tangle And she's got him in her spell
She dances with his mind And she dances on the floor
And she knows how to drive him So lo-co!

Conrazon De Melao, Melao Melao Melao

Emmanuel knows she's trouble But what else can he do
She's got him'round his finger With her different
points of view
She can dance away her troubles
She's danced into his life

Conrazon De Melao, Melao Melao Melao

She got him working hard for her All night!

Emmanuel seen it all But no like this before
A girl who turns up the heat
By walking through the door
And when she hits the dancing floor
She burns up all the lights She's the one
and only one thing in his sight

Emmanuel just doesn't know
Where this all is gonna lead He only know
what he wants And what he really needs He needs
to know What makes her tick And all her other
games He knows no other woman be the same
