Sweet Atlanta dances under the lights  
Me and the boys are back in town  
Tasting the nightlife  
Now the time is as right as it ever was  
Got a good buzz all is right you see  
I got a good time in my sights  
(Chorus)  
And she dances on the center stage  
Like a fantasy jumps straight off the page  
She got electric moves and got them down to a tee  
She got a Vegas smile, she gets a rise out of me  
Those all American girls got it goin' on  
They got it all in place oh yea  
And they let it be known  
And she ain't wrong  
From Detroit City down to Bourbon Street  
Dip me hand in the cookie jar oh yea  
And I'm hangin' with the World's elite  
Look at that boys  
(Chorus)  
And she dances on the center stage  
Like a fantasy jumps straight off the page  
She got electric moves and got them down to a tee  
She got a Vegas smile, she gets a rise out of me  
Got a Vegas smile it gets a rise out of me  
(Bridge)  
It's so good it will make you fall to your knees and beg  
For forgiveness  
It'll make you crawl across the desert on your hands  
And knees for a long hot mile  
It's time to break it down like a shotgun when you see  
That Vegas smile  
(Chorus)
