Come on, come over  
As fast as you can  
You're afraid that you won't like it  
But you don't understand

One thing, my brother  
I can tell you true  
The more time you spend feeling happy  
The less time you'll be blue

Come on, come over  
Everyone's waiting on you  
We're wondering when you'll get tired  
Of wondering what to do

There is something here that cannot be denied

Get on the floor, get on down  
Don't knock it until you try

Come on, come over  
The pleasure is all mine  
Music's playin', the door just opened  
You don't have to stand in line

People of the world  
Have been uptight far too long  
While you're busy making stands  
Everybody's making plans  
To move on, move right along
