The man behind these clothes and these kicks
The man behind these doors and these bricks
Stuck inside this s***
Keep goin lower like it's a pit
On every head like it's a zit
And this aint a threat
So don't get wet
It's just tryin to get people to know his mix
And flow lyrics and know his hits
So just know this
That the man from behind has lost his mind
And tossed his mind n lost this time
Lets add some nos to these rhymes
Don't waste your bosses time
Don't talk to me talk to my nine
Cuz the world is mine
But they can't keep me chained inside
No one can keep me tamed inside
I don't care what it's for name your price
But with your price don't plan on keepin your life
I'll take that too then take your wife
And if she talk back she can talk to the end of my knife
Nah don't cry close your eyes say your goodbyes
As you die say your last line
As you watch em lose em lose his mind
That's something you can lose that you can't find
You can just bind so hide your pride
Enjoy the ride keep it inside
As you watch her take her last breath
As she say goodbye to life and hello to death
Now forever she will rest
And forever I am blessed still not under arrest
Or I'm still not depressed but I'm still the detest
And still at the best
Life is a playground and this is recess
But life can be hell and here we will nest
Live your life and don't be stressed
As long as we rise we will own the US
And I confess that I possess the address to access of
success express
