Whohohohooow
Put it on me, put in on me
I can't let
Can't let you get
Ohw noo

Couplet:

He has a little game that he plays
clever little ways and a hot boy style
brags about the dough that he makes
Flash a little cash watch the girls go wild
Lately he's been checking for me
Telling me how much he wants to be
Wants to be the one to replace
Replace the man that waits at home for me

Chorus:

But oh no I can't let you get the best of me, even
though deep
inside somethings dying to see, how you flow
out them clothes and you put it on me
Feelings coming on strong
I know that its wrong
I can't let you get the best of me
(put it on me)
The best of me
(put it on me)

Couplet:

So is he tryin to play with my head
Tellin' me how he could blow my mind
Something 'bout the things that he said
Made me wanna take it there one time
I should be walking away, 'cause his hand's up on my
thigh
Should I leave
Should I stay
After all it's just one night.

Chorus

Jadakis rap:

Yo Yo Yo

I got so many bags of money that they won't fit in the bank

And Ima do this, just like Tony did it to Frank

But im gun' make sure both ya'll win

Let him keep the place you move and Ima pay both of ya'll rent

So forget about the condo and come to the crib, cuz the

castle over the mountain comes wit a bridge

You know literally we can go shopping in Italy

hand on her tigh, she ain't wanna get rid of me

and she don't drink or know how L looks

chanell look mix with the Pete Arnell look

You just stay pretty, while I'm runnin' the city

When I'm with the V. you can go hold the joint if you with me

Vacation cost a hunderd and fifty, we livin' it up

I'll put it on ya ass, if you givin' it up

And you know I'm not a hata and if you feel bad then you call

him up lata and tell him u all jada's...
