There's a big dark cloud hanging over me
And there's a million places I'd rather be
When all the days of doubt and uncertainty
Are weighin' on me

In a big big world,
There's a price to pay
Your just waitin' you turn for a chance to play
So I dream away on a very lonely, lonely day

Chorus:

That's when an angel came down
She spoke to me
You know it cleared my mind and it set me free
I gotta seize the day , yeah
I gotta seize the day yeah
That's when an angel came down
She spoke to me
You know it cleared my mind and it set me free
I gotta seize the day , yeah, I gotta seize the day

Now there's much, much more that I need to say
You know I long, long, long for a brighter day
Another fruitless search getting on the way
Is weighin' on me yeah
I spend days on end trying to explain
No point in drying out your tears in the pouring rain
I dream away another sad, sad lonely day

Chorus:

That's when an angel came down
She spoke to me
You know it cleared my mind and it set me free
I gotta seize the day, yeah, I gotta seize the day yeah
That's when an angel came down
She spoke to me
You know it cleared my mind, it set me free
I gotta seize the day, I gotta seize the day

[instrumental break]

That's when an angel came down
She spoke to me
You know it cleared my mind, it set me free
I gotta seize the day

That's when an angel came down and she spoke to me
You know it cleared my mind and it set me free
I gotta seize the day yeah

That's when an angel came down and she spoke to me
You know it cleared my mind and it set me free
I gotta seize the day, I gotta seize the day, yeah

That's when an angel came down...
She spoke to me...
Yeah, She spoke to me yeah....
Oohhhhhh.....wo wo made it...
ohhh.. ooooh ooooh who-oo.. yeah
It set me free...
Ohh hoo.. ooh.. hoo woo..
Hooooo.....
][lots of oohh.. wwhoaa..-ing][
