"Try My Love"

Time is everlasting in my eyes
I'll be your princess in disguise
Don't you stop and turn away
Can you see the hurt I feel inside
So baby don't you waste my time
You know I can't imagine love
So touch me like you do
Try my love
I'll show you what love can do
I'll make your dreams come true
Try my love
Tonight, baby
When I keep holding on to love
I feel this magic from above
Don't you stop and turn away
Can you try to paint my picture white
A thousand times you tell me lies
An understanding fool can see
So blind me like you do
