Jadakiss-

Uh huh uh huh uh huh

Yo lookin in your eyes while I grab your torso

Notice my diamonds doin the two-step also

Seems like a match made in heaven or more so

The feet work got the people lovin the floor show

Can't knock it til you tried it (correct?)

The lessons is private we heatin up changing the climate

In the guard is ill if bars could kill (correct?)

Me and you ma dancing with the stars for real

And I'm all for smokin and the dancin (correct?)

I ain't gonna provoke on hands should (correct?)

I'ma give you the chance to

Move it to the left to the right then take it down

Do the same thing again then break it down

I don't think you know how hard that you makin it now

Plus you all up in my ear makin them sounds

But I ain't rushin it's nothing

All I'm tryna do is follow instructions

Rhea-

I need you to follow every step I take

The beat, gotta feel it poundin in your chest

Baby just let it go

Don't be shy just flow

Let me see what you got

All I wanna do is bring you closer

Takin over, dance with me

Show me how you move, show me how you do

So I know how hard I gotta work with you

I'll be your dance instructor, choreographer

When you don't know how to move I'll show you what to do

Now move it to the left take it down take it down

Now move it to the right break it down break it down

My hips keep the rhythm watch the way they sway

My lips gonna whisper to ya while I shake

I like how you picked it up you're so studious
Boy it's a private lesson

All I wanna do is bring you closer
Takin over, dance with me
Show me how you move, show me how you do
So I know how hard I gotta work with you

I'll be your dance instructor, choreographer
When you don't know how to move I'll show you what to
do
Now move it to the left take it down take it down
Now move it to the right break it down break it down

All I wanna do is bring you closer
I'm Takin over, dance with me
All I wanna do is bring you closer
takin over, dance with me
Show me how you move
Show me how you do
So I know how hard I gotta work with you

I'll be your dance instructor, choreographer
When you don't know how to move I'll show you what to
do
Now move it to the left take it down take it down
Now move it to the right break it down break it down
