Don't Walk Away -Jade

(Verse 1)

I've got all this love, waiting just for you
I just gotta know that your love is true
Can't keep running boy in and out my life
Wanna be your girl, not cause the mood is right

(Chorus)

If I let you come inside, tomorrow will you hide
Will you be there for me, when I need someone to hold
Baby don't misunderstand, I do want you for my man
I just need a little time, before I invest you my love
Don't walk away boy, my love won't hurt you
Don't walk away boy, I'll be right there for you

(Verse 2)

You said all the things that I like to hear
You push all my buttons baby love to have close to me
Wanna feel your love wanna be for sure
That itUs me you need baby each and every night

(Repeat Chorus)

Baby don't misunderstand, I want you for my man
I need a little time before I give you my love
Don't walk away boy, I'll be right there for you

Don't walk away
This is what is sounds like when we make love
Ohh ohh
Don't walk away
Don't walk away boy, I'll be right there for you

(Repeat until fade)
