(Wadge)

Why don't you take a chance
Forget about the circumstances
Why don't you take a leap of faith
Maybe this time your heart won't break into pieces

You can close your eyes if you like
You can make your moves in your own sweet time
Or you can send his heart on it's way
But I know in the fullness of time
You'll ask love to stay
Mmm yeah stay...

So if he tells you that he's on your side
Take it happily and don't deny him
He's not the one who made you cry

Maybe this time it'll be alright time to try to

(Chorus)

It's not too late to start
To take a chance on your heart
This time love could be true
Cos he's as scared as you

Close your eyes if you like
Make your moves in your own sweet time
Or you can send his heart on it's way
But I know in the fullness of time
Yeah I know in the fullness of time
You'll ask love to stay
You'll ask love to stay
