(Wadge/Priestman)

Roll away, take me under
Move over my body like a summer breeze
Make me a river you sail upon
Let the wind blow softly round me

Carry me
I wanna be weightless
Carry me way out to see
Hold me in the water
I wanna be reckless
I wanna be free (x2)

If blue is the colour, I'm seeing sky
I was lost in the water and I didn't know why

Kicking my legs moving at speed
You threw me a line yeah you rescued me

Carry me
I wanna be weightless
Carry me way out to see
Hold me in the water
I wanna be reckless

Don't wanna be
Stuck here on dry land where I can't breathe
So take me by the hand and let the water...
Let the water flow through me

(chorus)
