Ice cold, you got me on hold
deal me out enough so I don't let go
You go fast, slow, keep it on the hush
leave me empty and happy like a cocaine rush
You're a cheap king, fake diamond ring
I'm a brand new toy just icing up your bling
Going up, down, up down, a little to the side, then
back, back, back
Your empty eyes have hypnotized me
Got me totally hooked on your lack of sensitivity
I'm one more name just a way to kill time
I'll never break your heart but you're sure breaking
mine
Don't wanna know why, just wanna know how
that damn deadly silence got me screaming so loud
more, more, more, more

Chorus:

Show me what it feels like
Show me where it hurts you
Show me what it tastes like
Show me what it means to
Never show a feeling, never let it get you
I wanna be indifferent like you

2nd Verse

On off, you got me on a cross
Crucified like a martyr, I'm a stone that you toss
Feeling used up, never be enough
Trying to decide if it's hate or love
You're a strobe light, tense and tight
No matter what I do it will never be right
So up down, up down, a little to the side than back,
back, back, back
How to unlock your tight locked chest?
You always win the game, but you never give your best
more, more, more, more

Chorus

C part

Nobody escapes the loosing
Nobody escapes the tears
Nobody escapes the game
No one except for you
