They've been working in the mills  
And working on the farm  
Getting down and dusty down at the lumber yard  
Swinging nine-pound hammers  
Driving big ol' trucks  
Breaking their backs trying to make a buck  
They got a pocketful of money  
It feels alright  
Well, it's just Another Workin' Man's Saturday Night

We gonna spend a little money  
Have a little fun  
Gonna get a little loose  
Gonna come undone  
Gonna howl at the moon & shoot out the lights  
Well, it's just another Working Man's Saturday Night

Turn the music up loud turn the lights down low  
Grab a barstool and get ready for the show  
There'll be hip shakin', glass breakin' all night long  
Probably break out a fighting when the cold beer's  
gone  
Gonna have ourselves a party-a real good time  
Well, it's just another Working Man's Saturday Night

We gonna spend a little money  
Have a little fun  
Gonna get a little loose  
Gonna come undone  
Gonna howl at the moon & shoot out the lights  
Well, it's just another Working Man's Saturday Night
