You've given far beyond my need so I give
My deepest thanks to you for all I've watched
you do
And for the things that I am yet to see
Still I'm confident to wait patiently
I cry out and you answer
I cry out and you answer
Father I know you listen when I pray
Father would you hear these simple words I say
I'm amazed at where we've been and
what we've seen
I can't imagine where I'd be without
you here with me
With a faith beyond the things I could see
So many times I've watched your hand as it
guides me
I cry out and you answer
I cry out and you answer
Father I know you listen when I pray
Father would you hear these simple words I say
Father I know you listen when I pray
Father would you hear these simple words I say
Tears are falling over me like rain
You have been so faithful time and again
And forever I'm reminded of your grace
Beautiful grace
And Father I know you listen when I pray
And Father would you hear these simple words I say
I cry out and you answer
I cry out and you answer
Father I know you listen when I pray
Father would you hear these simple words I say
Father I know you listen when I pray
Father would you hear these simple words I say
