"Never Alone"

Visit "[Never Alone](#)" on MotoLyrics.com

This world can sometimes paint a hopeless picture
With only glimpses of what could be
But I believe these are perfect plans
By the God who will redeem
So I'm left to face the trials
All my hope is fixed on you
I'm so thankful for your spirit that guides me
In this world that I walk through
And I am never alone never forgotten or an
afterthought to you
Oh and I am never alone not left to my own strength to
make it to make it through
He has made with us a promise
Built on the most amazing grace
Found in the childlike surrender
Just the smallest seed of faith
Blessed assurance hopeful future
Peace to calm the mighty storm
When it seems like nobody else cares
Yes my God he will be there
And I am never alone never forgotten or an
afterthought to you
Oh and I am never alone not left to my own strength to
make it to make it through
And I will never have to fear my god is hear right here
Spoken words of truth from the God that never fails
you never fail
And I am never alone never forgotten or an
afterthought to you
Oh and I am never alone not left to my own strength to
make it to make it through
And I am never alone never forgotten or an
afterthought to you
Oh and I am never alone not left to my own strength to
make it to make it through
And I will never have to fear, you're right here
