Move it like you want it, up on it
Move it like you want it, up on it
Move it like you want it, up on it
Move it like you want it, up on it

No hay nada más hermoso que mis nenas latinas
cuentas por envidias para el visto de las bonitas
la manera de su mueve, claro que no se compara
you know they have the taste 'cause they have their
own salsa
me gustan las cubanas, columbianas, mexicanas
don't forget those del caribe y su centroamericanas
i love the way they shake and just move them thighs
beautiful long hair and big brown eyes
Ms. Universe, they're a heaven send
When god made them, thats what he meant
cada hombre en este mundo quisiera tener
una raza latina que sea su mujer
no importa el tamaño o el color
mientras saben español yo pierdo control
so move it move it, mi linda latina
work it like you want it, show 'em que eres fina

Move it like you want it, up on it
(como tu lo quieras, que esperas?)
Move it like you want it, up on it
(como te remeto, mueve esa pierda)
Move it like you want it, up on it
(como tu lo quieras, que esperas?)
Move it like you want it, up on it
(como te remeto, mueve esa pierda)

Si tu tienes un sueño hazlo realidad
Que esperas? No te quedes atras
Life's too short not to live your dream
Wake up, it's time to be seen
We all live life wanting somethin else
Some get to it, some hold out,
Some die tryin, some say later,
Some never do so they become haters
Empieza ahora mismo, tienes que atacar

Solo sigue en este mundo, puedes avanzar
El sue±o es tu secreto entre tu y dios
Y lo que haces tu con el, cuenta por 2
Some come get to it y no mires atras
El tiempo se te pasa y no regresar±i
Preparate, no time no way
Mueve ese cuerpo before it's too late

Move it like you want it, up on it...

Hey yo Jae-p let me get up on this
Ah, sim±n jump on in homes

Yea,
move it like you want it, jump on it
everybody in the house gotta get up on it
Jae, look at all the people man, can u feel the heat?
We gotta move this crowd, no more dyin in the streets
I'd rather live a life that we fear of pain and strife,
Chill with my fans, maybe party all night
Don't be surprised if we makin history
Miller, Coors, X, coolin out with jae-p
Cuando vengo yo entro al gran escenario
Energia pa' tu dia, oye que nos pasa
Esta vida es prestada a ±l que no hace nada
? ahora tumba la casa
Nuestra gente sufre mucho, buscando libertad
Esa es la verdad, ahora tiempo de triunfar
Creer es poder, libera tu mujer
Mueve esa grasa, levanta la raza

Move it like you want it...
