Sean into view  
a violent storm twisting and turning  
cold blood runs through every inch of your being  
crawling inside of you

Hide away from danger  
Hide away from yourselves  
stay away from danger  
Keep away from evil things

Prophecy warned of covering dark and impending  
doom  
Raising the tide with gravity's force pushing and  
pulling apart

Where is this world?  
Where are the cities drowned by oceans?  
Where is this world?  
Without man's legacy how will we carry on?
