I don't need no sex
I just wanna get with you

Oh, all I wanna know is can I get with you?
Don't lead me on can I get with you?
Girl it's you, it's you
It's them things that you do
It's all about you, it's you
I just want to get with you, girl

Girl, I see you shakin' your butt, baby what?
What'cha trying to do?
I don't need a little time 'cause tonight you're mine
Have a drink or two, yeah
Girl let's have some fun
You said that's what you really want
I got what you need
And I will fulfill all of your dreams

We can ride all night long if you want
We can play our favorite movie and stay home
'Cause no matter when or what we do?
I wanna get with you, oh yeah

Oh, all I wanna know is can I get with you?
Don't lead me on can I get with you?
Girl it's you, it's you
It's them things that you do
It's all about you, it's you
I just want to get with you oh

Step in my ride, I, I need company
I'm under that portion that you opened up for me
What you wanna do? Yeah
'Cause I need to be with you
Anything you think you're wanting
Whatever you need

We can ride all night long if you want
We can play our favorite movie and stay home
'Cause no matter when or what we do?
I wanna get with you, oh yeah come on

Now I wanna get with you

Oh, all I wanna know is can I get with you?
Don't lead me on can I get with you?
Girl it's you, it's you
It's them things that you do
It's all about you, it's you
I just want to get with you

We can ride all night long if you want
We can play our favorite movie and stay home
'Cause it ain't really matter when or what we do
I wanna get with you babe, babe, babe oh yeah
Babe babe babe

Oh, all I wanna know is can I get with you?
Don't lead me on can I get with you?
Girl it's you, it's you
It's them things that you do
It's all about you, it's you
I just want to get with you

Oh, all I wanna know is can I get with you?
Don't lead me on can I get with you?
Girl it's you, it's you
It's them things that you do
It's all about you, it's you
I just want to get with you

Oh, all I wanna know is can I get with you?
Oh, all I wanna know is can I get with you?
