(Oh shit!)

So So to the Def, JE, Bow Wow
Six in the mornin', mom's at my door
Airport's all wired, cause the kid should flow
Got an interview to do
I ain't tryin' to be late
But I can't leave the house
Without my Funk Flex tape
You know me
AKA little cold crush
Keep it hoppin' like a 6-4 juiced up
Keep it poppin' from The Tunnel to the plush
So So Def, yeah that's us

[JE]

Tell me how can you
Believe everything you hear
She ain't telling you
Cause she really wants to be here with me
And she would do anything to get with me
So please, don't believe a thing that she says to you

Did she say that she, that she be calling me baby
When she told you I was no good
And how all the time she tried to give it to me
Did she say that she wanted me
Did she say

Ain't the first time that she stabbed you in your back
Open up your eyes and see
A real friend wouldn't do that
Cause you need to sit her down and let her know
You can't mess up a good thing so go
I just wanna know one thing, baby did she say

She said I want your man
Making all sorts of plans
Trying to get me away from you
And as soon as you're gone
She's tryin' to get it on
Baby don't you listen to what she say

[JD (Brat)]
We don't stop
(For what?)
Yo uh
Now when my pager go...
Who you think that is?
My bitch, no your bitch see
She like you, but she in love with me
And how I go back and forth with da

[Da Brat]
B-R-A-T, when the two way vibrate
It's your nigga that's tryna come up on a hot date
To get next to Chante
Face it, he only fucked you cause he was wasted
And now he want a replacement

[JD]
Basically your listening to the hottest fam
Since the Jackson 5
We don't run outside, we hit the middle with the dive
Playa ice and the tweny inches on the ride
Playa when you see me

[Da Brat (JD)]
You see me, same thing, same way
Radio, TV, up in your face
It's us that digustingly bust and come up
(With our head out the window screaming)
We don't give a fuck
(Meet us dead in the bed)
Till the shit blow up

[Funkmaster Flex]
Yeah shout to Big Kap, Alcatraz
Cipher Sounds, Johnny Walker Ray DJ Keori, Mister Cee
DJ Scratch and DJ Twinz
