This song is so0 real right now
J.E Y'all (o0o0o) still (o0o0o yehhh)
o0o0o yehhh nahhh nahhh
this song is dedicated to somebody,
they feel like, they're apart of you (you know what i
mean)

Every night I sleep next to an angel,
Yeah she is that to me!
So Heavenly the most amazing creature that I ever
seen!
And she's loving me from every angle,
And she don't never misses a spot!
She flows through my body like water,
If she needs me I support her
Baby she's in my veins!

[Chorus:]
Her love, it flows through my veins,
It's like living and breathing, not dying, not sleeping,
It's all that I need!
Your love it flows through my viens,
It's the reason I'm breathin,
My heart ain't misleading,
It's all, all I need!
Her love, it flows through my veins!

I live just too keep you from danger,
Girl, it's my job just to protect you,
From an essay n all the players (so0 many haters)
Your heart is popping, mine too,
I feel so connected to you, baby you're all I,
Baby you're all I dream!
You're all I need,

Shorty knows, she knows she doesnt miss a spot
She's flows thru my body like water,
If she needs me, I'm on her,
Her love is, her love to me,
Bring me right down to my knees! (shes flowing
riiiiiiiight)

[Chorus:]

Her love, it flows through my veins,
It's like living and breathing, not dying, not sleeping,
It's all that I need! (all i ever need)
Your love flows though my viens,
It's the reason I'm breathin,
My heart ain't misleading,
It's all that I need!
Her love, it flows through my veins!

Girl you and me is sun and the moon,
Out of this world, ain't nothing I wouldn't do, do, do,
do!
You, you, you, without you I'm sickly, I'm running out
for you,
it flows through our veins, flow through my veins!
Loving me, touching me, always so real to me,
Flow through my veins! Flow through my veins!
I mad need you air, I need you right here,

[Chorus:]

Your love, it flows through my veins,
It's like living and breathing, not dying, not sleeping,
It's all that I need!
Your love it flows through my veins
It's the reason I'm breathin,
My heart ain't misleading,
It's all that I need!
Her love, it flows through my veins!
