Yes, yes, yes, yes, yes y'all
Busta Rhymes in the place to be
So so Def, Flip Mode, J.D., Jagged Edge, check it

We keeps it hot to def you can't deny
Ha, ha, ha, ha, ha, ha
'Til my people feelin' good, yes, you'll react to mine
Ha, ha, ha, ha, ha, ha

Before I hit you off, we'll bust a million and one
Raise your whole adrenaline baby have fun
I be rollin' with womens whippin' Benz and Beamers
Makes ya shivers when I delivers like Doc Quivers

I keeps the shit that'll get you outta your dressers
Pass the testers, overcoming the minor stressers
I got your message and only in a matter of seconds
I'll be there for you whippin' the five S's

Feel my Jagged Edge's bouncin' on fly records
While I bounce on smokin' beats like Benson and
Hedges
I'll be here by all for one baby one for all
Need a nigga call anytime I'll be there for y'all

Sometimes you need someone to be with
But your private side just won't let you
How can I show that I love you so?
And I care about everythang that happens to you

So tell me do you have someone who you can call on?
Do you have somone that you trust?
And will they always be around you to protect you?
Will they be around when you need them the most?

When you're feeling low, nowhere to go
You can call me, I'll be right there
When you're feeling down, no one's around
You can call me and I'll be right there

I know what you, you need from me
If you dial the phone, I'll make you see

No one can do the things that I'll do for you that's that
Give me that chance and I bet I can ease your mind

So tell me do you have someone who you can call on?
Do you have someone that you trust?
And will they always be around you to protect you?
Will they be around when you need them the most?

When you're feeling low, nowhere to go
You can call me, I'll be right there
When you're feeling down, no one's around
You can call me and I'll be right there, yeah

When you're feeling low, nowhere to go
You can call me, I'll be right there
When you're feeling down, no one's around
You can call me and I'll be right there, yeah

Can't speak it's way past due for something new
I agree, so live and direct from DC, it's J.E., since
demos
We been makin' dem hoes hot, it's been a long time
Since you heard a crew rock the spot like us

And plus, stay plus just what you missin'
If you can't stand the heat keep yo ass out the kitchen
Stop bitchin', listen to how it should be done?
Where you from? East side 'til I die you don't want none
