"Lace You"

Visit "[Lace You](#)" on MotoLyrics.com

Girl I can lace you

If I can do it, I'll do it
The way you want me to
I know that I can work it right
Get on it, get to it
It ain't no need in frontin', you and me we're just alike,
oh

If you like it, we'll do it
Just as often as you like babe
Call me up, I'll start you up anytime
Let me be the one who will tell you that
I will lace you

Girl I can lace you
If you like it non-stop
Lick you to the last drop
And you know I make it hot
Make your dreams come true
And you know in your heart I will

Girl I can lace you
If you like it non-stop
Lick you to the last drop
And you know I make it hot
Make your dreams come true
And you know in your heart I will

If you say it, I'll do it
Ain't no need for me to question you, girl it's your way
Your clothes, just lose them
All you need is the things you were born with
To get it on with

I mean it, I'll prove it
'Coz anybody can say it, "I want to play it real safe"
If you know it like I know it baby
Call my name and we can grind all night, oh

Once you get laced by me
You never wanna leave

Once you get laced by me
You won't wanna, you won't wanna leave, leave

Girl I can lace you
If you like it non-stop
Lick you to the last drop
And you know I make it hot
Make your dreams come true
And you know in your heart I will

Girl I can lace you
If you like it non-stop
Lick you to the last drop
And you know I make it hot
Make your dreams come true
And you know in your heart I will

Girl I can lace you
If you like it non-stop
Lick you to the last drop
And you know I make it hot
Make your dreams come true
And you know in your heart I will

Girl I can lace you
If you like it non-stop
Lick you to the last drop
And you know I make it hot
Make your dreams come true
And you know in your heart I will

Girl I can lace you
If you like it non-stop
Lick you to the last drop
And you know I make it hot
Make your dreams come true
And you know in your heart I will

Girl I can lace you
If you like it non-stop
Lick you to the last drop
And you know I make it hot
Make your dreams come true
And you know in your heart I will
