When I lay you down
When I lay you down
When I lay you down
(When I lay you down)
You know that I'm falling for you

When I lay you down

It's Friday night, just got paid freshest cube in a glass
of lemonade
I was down in Miami, flying back today
Call up Nikki, she like to get kinky, have a good time
every time she with me
And I'm thinking hey, I might just be fallin' for her, hey,
hey, I might just be fallin' for her

She don't care about what you say, she just get it how
she know
Have it anywhere, even get it on the floor
What she show me what she knows
Now I just be tripping if she dips somewhere

Maybe I'm dumb or just maybe I'm just sprung
Why should I be tripping if she dips somewhere?
And I never thought I'd fall for you

When I lay you down
When I lay you down, down
When I lay you down
When I lay you down, I'm falling for you

When I lay you down
When I lay you down, down
When I lay

This girl, she's a classic, owns Reeboks
Her beauty legendary like Biggie and Pac
She stunning like a homie, she bang on the block
She acting like my bodyguard, yeah, she my
bodyguard

Yeah, I got her under my potion

I'll bring her to my beach house, view of the ocean
I already know it slow motion
Already know it slow motion

I can't even lie, I love it when I'm in it
Me, I'm trying to win like I'm going for the pennant
Pennant, pennant, love it when I'm in it, baby
Baby, I'll be mad if you dips somewhere

Maybe I'm dumb, matter of fact I'm sprung
That's why I be tripping if she dips somewhere
'Cause I ain't had no better, don't want no better
She asked me when I leave her, never

When I lay you down
When I lay you down, down
When I lay you down
When I lay you down, I'm fallin' for you

When I lay you down
When I lay you down, down
When I lay

Ooh, ah, she makin' that sound
All I wanna hear when I lay you down
Fallin' in love like I'm teenage now
Goin' 'til I hear the bell ring

Studing her like she extra credit
Asked me for a grade, it's a A, I'm betting
And I can't wait to get home
When I lay

When I lay you down
When I lay you down, down
When I lay you down
When I lay you down, I'm fallin' for you

When I lay you down
When I lay you down, down
When I lay
