I done had in a long while (Long while)

But tonight I'm sparin' you the details

Im'a make these next few hours worth your while

Baby cut off your phone, oooh

Tell me what else you want, oooh

It'll be here upon horizon, oooh

It don't matter the cost

I can hit just to break you off, yeah

(I got) the music and lights, on dim

(I got) them bubbles ready for you, just get in

(I got) champagne and your favorite type of gin

I'ma make it so you always gon' remember this tonight

[Chorus:]

When we set the scene tonight, oh yeah

In an hour, I'ma be at your crib on time (Be at your crib on time)

I hope you got on somethin' I like

Half-naked or wearin' somethin' skin-tight, yeah

And baby, we'll be rockin' till the mornin'

Lay back and watch the sunrise, sunrise yeah

And maybe we can talk about our future

While we watch the sunrise, sunrise

Sunrise, girl tonight

[Verse 2:]

Girl tonight, stick with the program (Program)

Gotta car to get you to my house (To my house)

Matter of fact, let's get the program (Program)

Cause I love the way your workin' out

Work it out, work it out, yeah

You can get what you want, you know a closed mouth

Don't get fead, you gotta say what's in your head right now

Probably thinkin' the same thing, but not out loud

Baby let me, let me
Let me work that body, bottom to the top (To the top)
When I get there just say "baby that's the spot"
Don't move, don't stop, don't go nowhere
That's it there, that's it there

[Chorus:]

When we set the scene tonight (Girl in an hour)
In an hour, I'ma be at your crib on time (I'll be at your
crib on time)
I hope you got on somethin' I like
Half naked or wearin' somethin' skin-tight (Oooh, so
tight)
And baby, we'll be rockin' till the mornin'
Lay back and watch the sunrise (Sunrise)
And maybe we can talk about our future
While we watch the sunrise
Sunrise

[Breakdown:]

When the sun comes in, (Sunrise, sunrise)
That I know it's morning, and it's over
We can do this again (Sunrise, sunrise)
Matter fact, we'll do it later
Cause I can never get tired of her (Sunrise, sunrise)
sunrise, come in, come in, in, rise
Sunrise, sunrise
sunrise, come in, come in, in, rise

[Chorus:]

When we set the scene tonight
In an hour, I'ma be at your crib on time
I hope you got on somethin' I like
Half-naked or wearin' somethin' skin-tight
And baby, we'll be rockin' till the mornin'
Lay back and watch the sunrise
And maybe we can talk about our future
While we watch the sunrise
