I finally figured out why I'm always on guard
When you're around, I'm feeling so uncertain
'Bout do you really want me or what I got?
I really hope it's not but I wonder why

If I ain't taking you out somewhere nice
You ain't even tryna come on by
And just say, "Hi," we can stay in the house
For a quiet night tonight

I'm tryna, tryna, tyna, tryna, tryna let you know baby
But I can't make it that easy
A girl gotta have a little game too
You should know that it's all about you

I'm having visions of this girl like a warning
I'm waking up like six in the morning
Feeling like it really ain't healthy
Do she wanna be with me? I need to know

Visions of this girl like a warning
I'm waking up like six in the morning
Feeling like it really ain't healthy
Do she wanna be with me?

Think I'm sweating now, just tryna figure if you're the
one
Wish you'd give me a clue about what you're about
Let's have it out, I'm going down
Hope you think of me

And if you really don't then let it be
'Cause I can't be nobody's charity
It's real love for me, entirely and completely
I don't wanna to know

I'm tryna, tryna, tyna, tryna, tryna let you know baby
But I can't make it that easy
A girl gotta have a little game too
You should know that it's all about you

I'm having visions of this girl like a warning

I'm waking up like six in the morning
Feeling like it really ain't healthy
Do she wanna be with me? I need to know

Visions of this girl like a warning
I'm waking up like six in the morning
Feeling like it really ain't healthy
Do she wanna be with me?

Having visions of this girl and
Could this be my warning?
Having visions of this girl and
I don't know if maybe this is my warning
Warning, warning, warning

I'm having visions of this girl like a warning
I'm waking up like six in the morning
Feeling like it really ain't healthy
Do she wanna be with me? I need to know

Visions of this girl like a warning
I'm waking up like six in the morning
Feeling like it really ain't healthy
Do she wanna be with me?

I'm having visions of this girl like a warning
I'm waking up like six in the morning
Feeling like it really ain't healthy
Do she wanna be with me? I need to know

Visions of this girl like a warning
I'm waking up like six in the morning
Feeling like it really ain't healthy
Do she wanna be with me?

I'm having visions of this girl like a warning
I'm waking up like six in the morning
Feeling like it really ain't healthy
Do she wanna be with me? I need to know

Visions of this girl like a warning
I'm waking up like six in the morning
Feeling like it really ain't healthy
Do she wanna be with me?
