I'm rollin' down a lonely highway  
Askin' God to please forgive me  
For messin' up the blessin' he gave to me  
I see everything clearer now

The night's as black, black as it's ever been  
Without my girl, I'mma lose it  
And I pray that He just sheds His grace on me  
I need just to be back with my baby

Feels like I just walked right out of heaven  
Feels like I done damn near thrown my life away, hey  
I'm scared just like a child that's lost at seven  
I don't know what to do  
To get back right with you

Feels like I just walked right out of heaven  
Feel like I done damn near thrown my life away  
Like a child that's lost at seven  
I don't know what to do  
Feels like I just walked right out of heaven

See my mama told me that if it's meant to be  
She'll come back and she'll forgive me  
And the best thing I can do is to just let her let her go  
I know I don't wanna do it

But if I continue to push she'll just pull away  
And I know that in my heart it's a reality  
I didn't treat her like she wanted to be treated  
And I hope that she's not gone for good, no, no, no

Feels like I just walked right out of heaven  
Feels like I done damn near threw my life away, hey  
I'm scared just like a child that's lost at seven  
I don't know what to do  
To get back right with you

Feels like I just walked right out of heaven  
Feel like I done damn near throw my life away, hey  
Like a child that's lost at seven  
I don't know what to do

Feels like I just walked right out of heaven

Baby, right before you all the time  
So close to you, wrong with my life  
Girl I try and I try

I feel like I can't walk, I feel like I can't talk  
I don't know what to do  
To get back right with you  
I feel like I just walked out of heaven, baby

If you ever love somebody  
And if you ever have somebody  
But you know where your heart can hurt by somebody  
Let me hear you say yeah

Feels like I just walked right out of heaven  
Feel like I done damn near thrown my life away, hey  
Scared just like a child that's lost at seven  
I don't know what to do  
To get back right with you

Feels like I just walked right out of heaven  
Feel like I done damn near thrown my life away, hey  
Like a child that's lost at seven  
I don't know what to do  
Feels like I just walked

Feels like I just walked right out of heaven  
Feel like I damn near threw my life away, hey  
Feel just like a child that's lost at seven  
I don't know what to do  
To get back right with you

Feels like I just walked right out of heaven  
Feel like I damn near threw my life away, hey  
Feel just like a child that's lost at seven  
I don't know what to do
