What cha wanna talk bout, can we talk about it and  
handle this maturely  
Don't nobody love you baby, nobody begging baby,  
after troubles that we've seen  
I know your tired of walking, tired of digging up the  
sand , using common cause baby  
Just like I'm tired of rice and beans and collard greens,  
but remember this  
When the bill collectors they come a knocking there  
won't be no stopping when I'm deep inside your love  
And when the telephone bill won't get paid baby don't  
worry, you can reminisce about the love you gave  
And when the there won't be no anger, as long as I got  
you when I'm  
I just as long as I got you boo so

If you tell me what's on your mind, we can join hands  
and find  
A place from where we both can climb, and stop  
struggling, struggling yeah  
And if your' telling me how you feel, I can let you know  
the real  
And then we can both just build, and make this thing  
much better baby

Now I know you want the benz, trying to reach for the  
style, cause a brothers just trying to live  
Know you want the big house baby and a brand new  
benzo and credit with no bad debt  
But you see we got it all with God's blessing, in the  
comfort  
If we just communicate, I'd appreciate cause it's got  
When the bill collectors they come a knocking there  
won't be no stopping when I'm deep inside your love  
And when the telephone bill don't get paid baby don't  
worry, you can reminisce about the love we gave  
And when the sinner people pull in on Sunday baby it's  
all right , as long as I got you  
Everything is true and cool just as long as I got you

If you tell me what's on your mind, we can join hands

and find  
A place from where we both can climb, and stop  
struggling, struggling yeah  
And if your' telling me how you feel, I can let you know  
the real  
And then we can both just build, and make this thing  
much better baby

Make this thing better baby yeah ? (repeat 4 times)

If you tell me what's on your mind, we can join hands  
and find  
A place from where we both can climb, and stop  
struggling, struggling yeah  
And if your' telling me how you feel, I can let you know  
the real  
And then we can both just build, and make this thing  
much better baby
