Raven, she quoth to me  
Forever more you'll stand by me  
Never more, will I adore, to see you with my enemy

The sound, the fire, the dark, the pyre  
I stand upon your corpse, now silenced  
I left you there upon the ground  
So long ago I have been found  
So now I look upon your grave  
To all the hours, to you I gave  
Back then we fought, but now I'm here  
Our history gone, no voice I hear

Mercury runs thorough my veins  
Ravens fly across the plains  
The days of light are now long gone  
Into a black embrace we walk  
My heart still burns for you my dear  
My soul grows cold with endless years  
I see you neck, smooth flesh appeals  
Into your neck, my teeth you feel

Raven she quoth to me  
Forever more you'll stand by me  
Never more, will I adore, to see you with my enemy

You are like me, come closer now  
No one else would I allow  
To join me in this hollow life  
You make feel like I'm alive  
No mirror will you see me in  
Blood drawn out from deep within  
Pictures taken, times long gone  
Forever more, we will live on

Raven, she quoth to me  
Forever more you'll stand by me  
Nevermore will I adore to see you with my enemy

Raven  
Fly across the plains  
Raven

Flying, dark, fast, and sharp  
Over the mountains.
