I'm listenin'  
Caught up in a web of deception  
From this shit I done learned new lesson  
So what cha do, you keep on playing, you play on,  
playa

From love to confusion  
You keep getting but you keep losin'  
So whatcha find comforting, your boozin', bosom  
Heart brusin', I'm the one

From the high note to the low pains  
You see destruction but no aftermath  
Only voices you hear in your head  
They all laugh, ha-ha, ha-ha, ha, yeah

From your denials to your delusions  
Everything you gain you keep loson'  
What you not know, this is an illusion  
So what the hell you're doin'

He's looking and looking  
He's looking and looking  
He's looking and looking  
He's looking at you, he's looking at me

He's looking and looking  
He's looking and looking  
He's looking at you, he's looking at me  
He's looking at us, he's looking at we  
Ah shit, he's lookin' at me

You wake up, baby boy, but you're not sleep  
You test full but you're not it  
You're running fast but you're not on your feet  
And your speed is dead

You run along but you not know  
You climb inside but you can't grow  
Faster and faster until you fall to them floor  
You screamed on but don't sing along

You work and work with no pay  
You punch a clock but never end your day  
You take vacation but your not playing  
What we say by this time, here my friends, drink three  
You cry, cry, revolution, but what you want is a solution  
But you're more content with being a pollution  
Jump in the motion, and ask the notion

He's looking and looking  
He's looking and looking  
He's looking at you, he's looking at me  
He's looking at us, he's looking at we

He's looking and looking  
He's looking and looking  
He's looking at you, he's looking at me  
He's looking at us, he's looking at we  
Ah, looking

Self love, self preservation  
Self love, self preservation  
Self love, self preservation  
Take a look at it

Self love, self preservation  
Self love, self preservation  
Self love, self preservation  
He's looking at

Self love, self preservation  
Self love, self preservation  
Self love, self preservation  
He's looking at, he's looking, looking and looking

Self love, self preservation  
Self love, self preservation  
Self love

L O V E, L O V E, love  
L O V E, love, L O V E, love  
Ya'll say, yeah

You know, L O V E, L O V E, love  
L O V E, love, L O V E, love  
Ya'll say, yeah

L O V E, L O V E, L O V E  
Ya'll say, oh  
L O V E, L O V E, L O V E  
L O V E, L O V E, L O V E  
Ya'll say, yeah

Self love, self preservation  
Self love, self preservation  
Self love, self preservation  
He's looking at, he's looking at

Self love, self preservation  
Self love, self preservation

If you don't like your job  
Maybe, you should quit stop being a bitch and love  
yourself  
If you believe things can work out easily  
I'm telling you if you don't like what your mama's telling  
you  
Then be a grown man and stand up on your own two  
and love yourself

And if your girlfriend's on welfare  
Then baby, walk away, you don't have to care and love  
yourself  
And if standing on the corner and pushing them rocks  
up in your socks  
Ain't what you want to do tonight then, love yourself

L O V E, L O V E, yo  
L O V E, L O V E, yo

He's looking at L O V E  
He's looking at L O V E  
He's looking at L O V E  
Love yourself

What I'm tryin' to tell you here is  
Life it passes you by  
And if you don't get up off your ass  
I'm telling you, it's gonna fly, the time's gonna fly

And you'd find yourself about fifty years old  
Sittin' on a porch with your grand kids  
But you know what, man, you ain't got shit to tell

You still live in that same-old bullshit-ass reality  
That was passed on down to you by your family  
From generation to generation to generation to  
generation  
And you ain't got shit, man, you sure fucked up

All right, it's real simple  
I mean, this is for anybody, any age, man  
Get up off your ass, forget the past

And remember that the future is the only thing that you  
fuckin' got  
So run with that shit

Shit, it's that simple, ain't it? Yeah  
Love yourself, believe in yourself  
Be true to yourself, be you for yourself, do you?  
Caught up in a web of deception  
From this shit I done learned new lesson  
Work and work with no pay  
Punch a clock but never end your day, yeah

You run along but you not know  
You climb inside but you can't grow  
You cry, cry, cry, revolution  
But there is no solution  
'Cause you're the pollution, yeah  
Caught up in a web of deception  
Nigga, learn your lesson
