Whatcha wanna talk 'bout can we talk about it
And handle this maturely? Don't nobody love you baby?
Nobody begging baby, after troubles that we've seen

I don't know your tired of walking, tired of digging up
the sand
Using common cause, baby just like I'm tired of
Rice and beans and collard greens but remember this

When the bill collectors they come a knocking
There won't be no stopping when I'm deep inside your
love
And when the telephone bill won't get paid, baby don't
worry

You can reminisce about the love you gave and when
There won't be no anger, as long as I got you, when I'm
hang girl
I'll just fuss and scream at you, just as long as I got you
boo so

If you tell me what's on your mind, we can join hands
And find a place from where we both can climb
And stop struggling, struggling, yeah

And if you're telling me how you feel
I can let you know the real and then we can both
Just build and make this thing much better, baby

Now I know you want the Benz, trying to reach for the
style
'Cause a brothers just trying to live, know you want
The big house, baby, a brand new Benzo and credit
with no bad debt
But you see we got it all
With God's blessing in the comforts of our own home
And if we just communicate, I'd appreciate 'cause it's
got

When the bill collectors they come a knocking
There won't be no stopping when I'm deep inside your
love

And when the telephone bill don't get paid, baby don't
worry
You can reminisce about the love we gave

And when the sinner people pull in on Sunday
Baby, it's all right, as long as I got you
Everything is true and cool just as long as I got you

If you tell me what's on your mind, we can join hands
And find a place from where we both can climb
And stop struggling, struggling, yeah

And if you're telling me how you feel
I can let you know the real and then we can both
Just build and make this thing much better
Baby, baby, baby, baby, yeah

Make this thing better baby, yeah
Make this thing better baby, yeah
Make this thing better baby, yeah
Make this thing better baby, yeah
I said, yeah, yeah, yeah, yeah

If you tell me what's on your mind, we can join hands
And find a place from where we both can climb
And stop struggling, struggling, yeah

And if you're telling me how you feel
I can let you know the real and then we can both
Just build and make this thing much better, baby

Make this thing better baby, yeah
Make this thing better baby, yeah
