You got me baby  
This here going for all the ladies, oh  
All I really want is your ghetto love  
24/7 we'll be makin' love  
I'll take it downess if you want me too  
Just one and many things I wanna do to you  
(Girl) Don't you get scared  
I'm gonna take my time  
Whatever it takes that'll make you mine  
It's getting late save a thing for J  
Let me love you my ghetto love way, yeah  
Baby 2 weeks ago I might you at that party  
You was knockin' by and rockin' lookin' my way  
Standin' at the crossing at the party  
I was tempting (Tempting) to slide across the floor  
To drop my digits  
Then you looked and turned away  
Like you weren't with it  
But I knew in my heart that I  
Could rippin' girl  
I'm givin' you what you wanna do

All I really want is your ghetto love  
24/7 we'll be makin' love  
I'll take it downess if you want me too  
Just one and many things I wanna do to you
