All my real niggas... Ja in this muthafucker...Ghetto slick
niggas putting it down

No lil nigga aint mine
What you think a muthafucker blind
Looks just like Ginuwine
I know he been tappin that spine
Or could it be that nigga doin time
That got your stupid ass in a bind
Back in 99 when everybody thought you were so fine...
The nigga aint mine

Yo' knock it off bub you're killing me he couldn't be
mine
He too yellow and your skin darker than mine
Grade of hair too good, both of ours is rough
He aint got my eyes they aint brown enough
You playin babyshower stunts while i'm countin the
months
So all i'm thinkin is why me and what the fuck you want
You better call that pretty boy up and harass him
Ja told me that you were knockin boots wit him
I aint your baby father, aint even close to that
NOW what i look like, forget it don't answer that
I'm probably a fool you know what you're probably right
Like i'm probably his pops and i'm probably white
Get on before you get jumped on an such
That lil nigga aint (NO!) what you stoned or what
Thanks a lot Ja Ja aint you're babydad - you need to
slow down love cause you're moving too fast you
know?
Tell em Ja

No lil nigga aint mine
What you think a muthafucker blind
Looks just like Ginuwine
I know he been tappin that spine
Or could it be that nigga doin time
That got your stupid ass in a bind
Back in 99 when everybody thought you were so fine...
The nigga aint mine

HA! Aint nothing...
NO! A nigga aint with that shit
Girl you've got some kind of nerve
All i done for you aint got no words for you
Just pack your shit and go- Find your babyfather cause
i'm not him no
What you think i don't know your dealo better go find
that nigga then girl

(Imma tell you one time)
Lil man got that same head display the same
eyelashes
The same DNA kid the match aint clashin
Asking bout somebody up north you killin me soft
You wanted it rough said your shit broke off
Meet Ginuwine one time he tried to beat me in the head
with that - meet me in the bed with that he triggered
these drawers
Since i let you dip in and check the birth certificate
Put a clip in it uh huh - nigga that's yours

No lil nigga aint mine
What you think a muthafucker blind
Looks just like Ginuwine
I know you been tappin that spine
Or could it be that nigga doin time
That got your stupid ass in a bind
Back in 99 when everybody thought you were so fine...
The nigga aint mine
