Don't wait for that day
'cause then it don't come
Go your ways like everyday
And don't change direction
Don't wait for that day
Cause then it don't come
In time when ya heart a heavy load
You want princess fe come

When I look into your eyes
I will know right from the beginning
That it must be love at first sight

Don't ask me how me do
When you look into my eyes
My heart is broken in two
Princess in my life
I'll wait for that day
When she cross my sight and way
Jah sign will shine
The right moment the right time
