

Jah Cure "Never Find"

Visit "[Never Find](#)" on MotoLyrics.com

Cure again
Come to give you more again
Yeaah heey

You'll never find
No one in this lifetime to love you like I do
So never mind
Things that people say that I'll never hurt you
You'll never find
No one in this lifetime
So never mind
Let time unwind

Baby,
Lay your head to rest, baby (baby)
Let us put love to the test, baby
And let love lead the way
If we believe (if we believe)
Join our hearts of mind and souls
Keep us together

You'll never find
No one in this lifetime to love you like I do
So never mind
Things that people say that I'll never hurt you
You'll never find
No one in this lifetime
So never mind
Let time unwind

Baby
When time comes around
And no one's around
I'll be there with you girl
And silence your sound
Time after time tings
Pardon you down
But I will still love you (love you)
Our friends say that you are not sincere
Your friends say proceed with care
But you see and feel the realness in me
Our love is meant to be

Our friends say that you are not sincere
Your friends say proceed with care
But you see and feel the realness in me
Love was meant to be

You'll never find
No one in this lifetime to love you like I do
So never mind
Things that people say that I'll never hurt you
You'll never find
No one in this lifetime
So never mind
Let time unwind

Baby, I'm for you
You for me
It's meant to be (it's meant to be)
Exactly how it is
When you are here with me
Nothing exist
True love is what it is

You'll never find
No one in this lifetime to love you like I do
So never mind
Things that people say that I'll never hurt you
You'll never find
No one in this lifetime
So never mind
Let time unwind
Baby...
