Woah, yeah, no

Girl away you there from when
Wonder where you must have been
I need you as my closest friend
Have you in my arms again

You should calling me
Say she want the Rastaman
How could this be?
She want fi paring on mi Rasta Gan

It's only love
It's love only
Let it flow slowly
Flow slowly, yeah, yeah

Girl I can't believe you still really wanna
After all that your momma
And your papa say about me

She really still care about me
Say she can't do without me
Girl your love has really got me

Same way that I want you
Girl it's the same way, girl you want me too
It's the same day that I saw you
Then I knew that I was made for you

When love come knocking at you
Don't stop stopping at you
No matter what they say
No matter what they do

They've been watching us
Nothing can come between us
They've been chanting us
Nothing can come between us, girl no

Same way that I want you
Girl it's the same way, girl you want me too

Girl it's the same day that I saw you
Then I knew, then I knew

Girl away you there from when
I wonder where you must have been
I need you as my closest friend
Hold you in my arms again

You should calling me
Say she want the Rastaman
How could this be?
And the mother is a Christian

It's only love
Let it flow slowly
Let it flow slowly
Someday it could be

When love come knocking at you
Don't stop stopping at you
No matter what they say
No matter what they do

They've been watching us
Nothing can come between us
They've been chanting us
Nothing can come between us, girl, girl
Nothing can come between
This is what [Incomprehensible]
