### "What Would It Take"

Visit "[What Would It Take](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Baby only for you  
Lady only for you

What would it take my love to show you?  
I'm still in love with you?  
What would it take my love to show you?  
How much my love is true?  
Feelings she gave to me  
Makes me feel so brand new  
Love you for ever  
There's no other like you

Baby I know I hurt you twice  
Promise I'll never hurt you no more  
Although I know it's not nice  
Promise I'll never go back through that door  
although you got your choice  
Please make sure the first is secure  
I'll make my scarifice  
Only you  
No one before

what would it take my love to show you?  
I'm still in love with you?  
What would it take my love to show you?  
How much my love is true?  
Feelings she gave to me  
Makes me feel so brand new  
Love you for ever  
There's no other like you

Baby, no one but you  
Mmmm...

Many a times I've tried it  
Baby I can't deny it  
I just can't live my life a day in this world without you

What would it take my love to show you?  
I'm still in love with you?  
What would it take my love to show you?

How much my love is true?  
Feelings she gave to me  
Makes me feel so brand new  
Love you for ever  
There's no other like you

You no no no no no no no eh  
This is so special  
I tell you girl  
For someone special  
You've been in my world  
It's only for you

The things that I do  
Oh baby  
Girl open your heart  
And let love through  
Like every ocean shores  
By the rivers come through  
Back to the arms of the Cure  
When she wanna run to  
Let me tell you for sure  
You will come back to  
Baby  
Any time you want to  
Lady  
My loving going to haunt you  
Mmmm yeah

What would it take my love to show you?  
I'm still in love with you?  
What would it take my love to show you?  
How much my love is true?  
Feelings she gave to me  
Makes me feel so brand new  
Love you for ever  
There's no other like you
