Baby I'm sorry for all the pain
I will know better how to treat you next time
Don't you step into the footsteps of another
Cause then you won't leave your own traces behind

Baby I'm sorry for being such a fool
Baby I'm sorry baby forgive me now forgive me now

Baby I'm sorry for all the ups and downs
Beginning was gold but ended so cold
Don't you step into the footsteps of another
Cause then you won't leave your own traces behind

Baby I'm sorry for being such a fool
Baby I'm sorry baby forgive me now forgive me now
