Oh Jah your like a waterfall
You keep the flow goin on
Your forever fountain of life
Shall carry water to my dryland

Iâ´m the raindrop you are the ocean
To unite in I'n I
In times of darkness you shine on my way
I feel your guidance through night and day

My heart is a desert my soul a sea
My feet walk on concrete my hand touch the tree

Oh Jah your like a waterfall
You keep the flow goin on
Make me clever let me be wise
When I take your hand for help don't let me think twice

So me inhale smoke and positivity
And me exhale all the bad ghosts
Mek we reason and talk about it
Deep down in yaself you'll know the answer

Chorus

When the rain start fallin up to the sky
And the trees start growing from the blue
Will we ever get the message of the clue
That the world we living in was invented 20.000 years
from now

Chorus (2x)
