

## Jaheim "Another Round"

Visit "[Another Round](#)" on [MotoLyrics.com](http://MotoLyrics.com)

She licked the salt then licked the lime  
Takin' shots with her but I'm sippin' mine  
And by the time her and her girls  
Take a flick and sit back down  
I opened up a tab, keep 'em comin'  
I ordered another round

Round, round and the room start spinnin'  
Woke up in the Mandarin Inn bedspreads linen  
Lips lickin' a olive on a dirty mar  
She said, meet me tomorrow, couple of rounds up at  
the bar

Me, I'm on that dark, she on that clear  
On the rocks, another round over here  
And if we keep this up, it's going down, down  
Take that to the head, go ahead, order another round

Words start to slur  
It's all o-over her  
And we both on that liquid courage  
And we 'bout to be on the verge  
We order another round

Another round  
It's going down, it's going down  
Another round, another round  
It's going down, it's going down

No photo shop, build soda pop  
Got the kind of body that can't nobody stop  
And by the time she hit her limit  
Getting timid, slowin down  
Popped open up the bottle  
Empty bottles and order another round

Round, round and the room start spinnin'  
Woke up in the Mandarin Inn bedspreads linen  
Lips lickin' a olive on a dirty mar  
She said meet me tomorrow, couple of rounds up at  
the bar

Me, I'm on that dark, she on that clear  
On the rocks, another round over here  
And if we keep this up, it's going down, down  
Take that to the head, go ahead, order another round

Words start to slur  
It's all o-over her  
And we both on that liquid courage  
And we 'bout to be on the verge  
We order another round

Another round  
It's going down, it's going down  
Another round, another round  
It's going down, it's going down

We both wake up with the worst hang over  
The party's over and we're both sober  
And I look over at her, she looks over at me  
As far as I remember, I can't remember honestly

Me, I'm on that dark, she's on that clear  
On the rocks, another round over here  
And if we keep this up, it's going down, down  
Take that to the head, go ahead, order another round

Words start to slur  
It's all o-over her  
And we both on that liquid courage  
And we 'bout to be on the verge  
We order another round

Another round  
It's going down, it's going down  
Another round, another round  
It's going down, it's going down  
Round, down, round, down, down
