Get through it

I done stood out on the block 12 o'clock still bitchin'  
I done broke up bricks with bakin' soda in the kitchen  
I done lost my religion and spend nights wishin'  
I could fill up the holes in my soul, there's something  
missin'

I done sat back and laughed and let the beef unfold  
Done scrolls at triggers, rob niggers an' stole 'em  
5 years parole, kid, I been locked up  
I done lost so much, my heart is boxed up

I thought I'd never see a blue sky, never seen the birds  
fly  
(Until I met cha sunshine)  
Never new the other side I never new what love was like  
(What love was like)

I thought I'd never seen a pot a gold, baby, you're the  
rainbow  
(Seen a pot of gold, baby, you're the rainbow)  
Take me to where I never been  
(Where I never been, I thought the day would never  
end)

Oh, now, now that I found my girl  
(Oh, but now)  
I ain't never, ever, ever gonna a let her go, no  
(I ain't never)

And now, now she's inside of my world  
(She's inside of my wold)  
I ain't never, ever, ever gonna let her go, no  
(I ain't, no, no)

I done drown my sorrows in a bottle of gin  
I done poured out liquor for my very best friend  
I've been hitched fell off and got through again  
Then left out in the cold till I can never win

I done promised to my lady I would try to change

Met a chick went back an' did the same damn thing  
I done took the blame and blame people for things  
Snatchin' chains on the train, I've done some crazy  
things

I thought I never seen a blue sky, never seen the birds  
fly  
(Seen a blue sky, until I met cha sunshine)  
Never knew the other side, I never knew what love was  
like  
(What love was like)

I thought I'd never seen a pot of gold but baby you're  
the rainbow  
(I've never seen a pot of gold)  
Take me were I've never been, ooh, I  
(I thought this day would never end, oh, but now)

Now that I found my girl  
(I've got to)  
I ain't never, ever, ever gonna let her go  
(I ain't, I ain't never, no, no, no, no, no, no)

And now, now she's inside of my world  
(You're inside of my world)  
I ain't never, ever, ever gonna let her go, no  
(I will never let you go, no, no, no)

Everyday seemed great  
Until you came and you brought the sun my way  
(To heaven I waste sendin' my way)  
(I'm home for the day somebody will say, "I love you  
baby")

And if it weren't for you there ain't no person  
I'd be trustin' and you got my word  
(Oh for better or worse, rich or for poor  
I've been through so much and you're still my girl  
forever now)

Now, now that I found my girl  
I ain't never ever, ever gonna let her go, no  
And now, now she's inside of my world  
I ain't never ever, ever gonna let her go, no  
(I will never let you go)
