Yeah

So you want drama, huh?

We can do this

Well, well, well, well, well

I heard you've been poppin' lip, talking slick

If you want it, you can get it, we can handle this

My shorty keep telling me, you're stressing her out

You need to relax before I go up in and I'm out

I'm not the one to be played with

Your loose ass lips will get your dome split

You're getting me steamed and you don't wanna do that

You mess around and make me have to wile out and snap

I think you better let it go

Heard you been creeping round my baby's back though

Now what you sliding through here for?

I think you better let it go

I think you wanna let it be

'Cos if you want beef, I got the recipe

Now you don't really want no parts of me

I think you better let it be

Can't believe you came here, thinking 'bout what's gone

What the hell, is wrong with you son? Best be moving on

Before you go, gotta let you know

See those excuses you was using

You can't come here with that, there no more

She's been around the house, stacking what you bought

Everything you own is on the back porch

You're breaking the rules, kid, I've had enough

I'm 'bout to start hooking off with jabs and upper cuts

What? What? What? What?

I think you better let it go  
Heard you been creeping round my baby's back though  
Now what you sliding through here for?  
I think you better let it go

I think you wanna let it be  
'Cos if you want beef, I got the recipe  
Now you don't really want no parts of me  
I think you better let it be

Wilin' over this chick Ja, Slow you illin'  
Probably be the next book by Terry McMillan  
Open off of a Hennessey, seeing the remedy  
Ready to pop 'em both like, like they breaking and entry

It's tempting, they'll turn your last name Simpson  
Redemption, leave you in a center of detention  
If he don't listen, air him out  
It's Shorty, it ain't a game  
It's what a playa about, cash flow

I think you better let it go  
Heard you been creeping round my baby's back though  
Now, what you sliding through here for?  
I think you better let it go

I think you wanna let it be  
'Cos if you want beef, I got the recipe  
Now you don't really want no parts of me  
I think you better let it be

Think you better let it go
