Yeah, yeah, ah, yeah
Today's your day, we going out, my baby
You and me, it's a safe location
Let's get away for your birthday
Take a nice little trip somewhere cross the bay

Hit the mall, go get your tips did up
Your nanny got the kids
Let's live it up
About a quarter to eight
And I won't be late
The 55 will be parked at the gate, baby

Make a wish, close your eyes, blow away, hey
When you're done, girl, give me a kiss
Make a wish, I'll make all your dreams come true
Make a wish, girl, there's nothing that I wouldn't do
Make a wish

Just make a wish
Write out a list, what's broke is fixed
Make a wish
What's diamonds and pearls, you know

You're my girl, I'll give you the world
Make a wish
I ain't talking 'bout no ifs or maybes, no possibles
Girl, you're driving me crazy

Make a wish
Now open your eyes, I gotta surprise, it's in the garage
I copped a C1645
Are you ready to take your first slide?
Cut the ribbon off the whip, put the key in and let's shift

Let's ride from coast to coast
Hit a nice lounge
Might as well have a toast, baby
On this special day
We're gonna celebrate my baby's birthday

Make a wish, close your eyes, blow away

When you done, girl, give me a kiss
Make a wish, I'll make all your dreams come true
Make a wish, girl, there's nothing that I wouldn't do
Make a wish

Just make a wish
Write out a list, what's broke is fixed

Make a wish
What's diamonds and pearls, you know
You're my girl, I'll give you the world
Make a wish
I ain't talking 'bout no ifs or maybes, no possibles
Girl, you're driving me crazy

It's your day, girl, you're 'bout to have it your way
We can set it off at the spa, black card no limit
Anything you want you can get it
We'll talk no gimmick, yeah, I'm committed gourmet
chefs
Fireworks and more, camcorder gonna catch it all

Make a wish
Make a wish, I'll make all your dreams come true
Make a wish, girl, there's nothing that I wouldn't do
Make a wish, just make a wish
Write out a list, what's broke is fixed

Make a wish
What's diamonds and pearls, you know
You're my girl, I'll give you the world

Make a wish
I ain't talking 'bout no ifs or maybes, no possibles
Girl, you're driving me crazy
Make a wish
