"Masterpiece"

Visit "[Masterpiece](#)" on MotoLyrics.com

When she walked past the corner store, I said
"Hello, what's your name?", She said, "Tracy
Donatello"
Long hair, tight jeans and stilettos
Conversation so good, didn't want to let it go

Shorty, you're a perfect 10
Classical like violin
I just can't settle for a friend
I need to know you more

You're the masterpiece from your head to your feet
Well educated plus you're so complete
Them other girls be hatin' 'cause you're so unique
I love you 'cause you're from the streets

How can I be down with you?
Shoot a couple of rounds with you
Drop the math and I'll flow though
Love, we can do what you wanna do

I know I saw that ass before bouncing up my block
I saw you twice shopping in the mall
Still looking sweet and tender
You've got that smile that I'll always remember

I only want to get together
Love, I'm trying to know you better
We can make it last forever
I can't get you out of my mind

You're the masterpiece from your head to your feet
Well educated plus you're so complete
Them other girls be hatin' 'cause you're so unique
I love you 'cause you're from the streets

How can I be down with you?
Shoot a couple of rounds with you
Drop the math and I'll blow through
Love, we can do what you wanna do

Tell me why you tryna play a nigga out

Love, stop fronting can a brotha take you out
somewhere?
I gotta lot of quality time to share
Girl, just say the word and I'm there

All I wanna do is maybe hit the clubs
Have a few drinks
Grab a bite to eat and head to the crib
So I can do my thing
Wanna have you up under my wing baby

You're the masterpiece from your head to your feet
Well educated plus you're so complete
Them other girls be hatin' 'cause you're so unique
I love you 'cause you're from the streets

How can I be down with you?
Shoot a couple of rounds with you
Drop the math and I'll blow through
Love, we can do what you wanna do

You're the masterpiece from your head to your feet
Well educated plus you're so complete
Them other girls be hatin' 'cause you're so unique
I love you 'cause you're from the streets

How can I be down with you?
Shoot a couple of rounds with you
Drop the math and I'll blow through
Love, we can do what you wanna do

You're the masterpiece, well educated
So complete, so unique, so street
Can I be down? Baby, I'm crazy for you
