Ummmm I hear you voice inside my head everywhere  
Ooooo yeah clear as day inside my head everywhere

[Verse]

It's killing me softly with every heartbeat  
thinking you can't see how your sons living  
(Hey mama) Is there an address up in heaven  
I feel dropping you this letter but it will be return to  
sender  
How I wish I could bring you home flowers on  
tombstones  
Lets me know it's been too long since I've been in  
whose arms  
(Yours mama) It's getting colder every winter  
I can't take the heat in summer, can't hardly deal with  
all this drama but

[Chorus 1:]

(Just when) I'm inches away from losing my mind  
(That's when) I swear sometime  
(I hear your voice inside my head) and it feels like  
you're  
(Everywhere, everywhere I am)  
(Just when) the walls are closing in on my world  
(That's when) I see my favorite girl  
(Clear as day inside my head) and it's obvious you're  
(Everywhere, everywhere I am)

[Verse 2]

Was that you saying just keep on praying  
You'll see the day when it will be worth the waiting  
(Hey mama) I think I've received your message  
Think how I'm receiving blessings Finally got the  
platinum record  
Did you see me on soul train dedicated the whole thing  
To your memory just hoping you're out there and  
knowing  
(You're mama) You were floating onstage with me  
Someone said they saw me glistening  
Gotta let you know I'm listening to you

[Chorus 2]

(Just when) It's the most important time of my life  
(That's when) That's when I swear sometimes  
(I hear your voice inside my head) and it feels like  
you're  
(Everywhere, everywhere I am)  
(Just when) Just when the heavens open up on the world  
(That's when) I see my favorite girl Julie  
(Clear as day inside my head) It's so obvious you're  
(Everywhere, everywhere I am)

[Bridge]

If God is in the spirit world talking to my heart  
Then for an angel I know it can be hard  
You are my guardian and I know you're still playing  
your part  
(I know you are) Just on the other side but always in my  
life  
No need to just believe I know you're here with me  
I'm reaching out my hand and to the promise land  
to feel your presence when I need strength

Everywhere I am, Everywhere I am  
Everywhere I am Everywhere I am  
Everywhere I am Everywhere I am  
Everywhere I am

[repeat]

[Chorus 1]
