ohh yeahh.

all night long
let's go

when i wake up in the morning i think of you
when i dream at night i dream of you
everything that i do, girl i do for you
nobody else can do
oh babygirl i'm a fool for you
but i just cant get through to you
i'm falling, falling
calling, calling
everywhere i go, i see your face
when i hear your name, i get out of place
so delusional and so disfunctional
could it be, could it be
you're the one for me
girl only you could get to me
i'm falling, falling
calling, calling

all night long
got me callin all night long, girl
girl you got me callin, callin
girl you got me callin
baby all night long, girl

i gotta get this right
gotta get to you
theres nothing else that i can do but
dial your number
baby just answer
this feels like crazy
gotta be my baby
falling falling
calling calling

when i call i cant get through to you
when i text i cant get through to you, no
so frustrated
why you got me waitin

girl you're toxical and so hypnotical
i'm falling falling
callin calling

all night long (all night im callin baby)
got me callin all night long girl
girl you got me callin, callin
girl you got me callin
baby all night long, girl

come on, uhh
as i rise, i see your smile
aint no other girl out there with your style
you stay on my mind like a midterm exam
you shout my number on your redial
oh honeybrown skin, so sweet child (?)
to have you in my life you make me proud
so i'm callin the gang cuz i heard from your friends
that your screensaver on your mobile is my picture
wanna get with ya
wont boss, lie to you or hit ya (?)
stop playing so hard, i wont diss ya
all i wanna do girl is kiss ya
and kiss you through the phone when i miss ya
i'll take you with a rainbow and as when you're lonely
(?)
and there aint no friends, i'll be with ya
i swear my darling

all night long
got me callin all night long girl
girl you got me callin, callin
girl you got me callin (callin)
baby all night long, girl
(oeh baby)
all night long (all night i'm calling baby)
got me callin all night long girl (ohh)
girl you got me callin, callin
girl you got me callin
baby all night long, girl
yeahh.
