Hey, oh, oh, yeah
You know that girl who seems so unreachable
Out of this world, Shawty's swag so unbelievable
Get into her is like flying to the sun
So hot, your halo burn like 1-51!

She know what I need
And so much more!
She's in the VIP
My life's still at that door
Opposite and clumsy, but she's dropping jaws
Way up in the sky, I look up and... singing

Chorus:
Shawty, if you ever come down to Earth
Promise me that you'll come and love me first!
You could just land on me, land on me!
You could just land on me, land on me!
If you're ever lonely late in night
Go and shoot like a star, you are to my side
You could just land on me, land on me!
You could just land on me, land on me!

You turn me on, the 7th dimension
Need a magic wand to capture your attention
Get in my dreams, you're calling me your a boo
But when, when I wake up, I feel like a fool!

If I ever get upon of Cupid's bow
You'd be the target of
All of my arrows.
When you get sick of sipping on Crystal
I've been waiting for you when ...

Chorus:
Shawty, if you ever come down to Earth
Promise me that you'll come and love me first!
You could just land on me, land on me!
You could just land on me, land on me!
If you're ever lonely late in night
Go and shoot like a star, you are to my side

You could just land on me, land on me!
You could just land on me, land on me!

My mind is giving up and my heart is.. struck
And with some luck I'll be flying high with you
Well I need is one shot to show you what I got
Oh, oh, oh, oh
One day I'll be the guy who you wake up to
The mourn in your eyes, instead I see through
Wishing that I had a clue, how to approach you
Until I do, I'll be right here singing!

Chorus:

Shawty, if you ever come down to Earth
Promise me that you'll come and love me first!
You could just land on me, land on me!
You could just land on me, land on me!
If you're ever lonely late in night
Go and shoot like a star, you are to my side
You could just land on me, land on me!
You could just land on me, land on me!
