I nearly lost my mind
Tryna figure out a way
To make you understand
I can't go on another day
Or maybe I was wrong
Been confused and led astray
Please give me one more chance
Cause I can't take what's happening

Have you ever lost someone?
Tryna take it back but the damage is done
The thought of loosing you makes me feel so sad
How am I gonna sleep when I feel this bad?
I know enoughts enough
It's gonna be tough to get through this...

I'll never be perfect
I'll never be cool
I'll always be nothing
Unless I'm with you
Cause you make me perfect
Tell me what can I do?
The pieces are missing
When I'm not with you

You make me peerfectttt
Perfect
Perrfreectt
Perrffeecttt

I know that I deserve it
But have you really lost all faith?
You know inside that we're worth it
There's so much more for us to say
Or maybe I was lost
Or maybe I was just afraid
Could you please forgive me
And hold me back in your arms again... (yaaaah)

Have you ever lost someone
Tryna take it back but the damage is done
The thought of loosing you makes me feel so sad

How am I gonna sleep when I feel this bad
I know enough's enough
It's gonna get tough to get through this

I'll never be perfect(perfect)
I'll never be cool
I'll always be nothing (nothing)

Everything I need appears with you
Everything can be so
Everything can be so....
