Nothing fits one part of radio-ooohh

Can you do me a favor
Promise me you'll say the same
Cause I'm digging you flavor
And I loved to hear you say my name
So tell me if it's cool if I lay on your bed tonight
I won't make a move girl I'll just watch you sleep
Hoping your dreaming about me

I wish that your love could fall down like rain
Everything you are is everything that a man could ever
want girl
Baby I could just hope you'll love me the same
I won't make a move girl I'll just watch you sleep
Hoping your deaming about about me
Eh eh eh eh eh eh eh eh eh eh
Hoping your deaming about about me
Eh eh eh eh eh eh eh eh eh eh
Hoping your deaming about about me

You be looking so fly girl
The way the wind be blowing through your hair
I want to make you my girl
And when you wake up I'll be standing there
I want to be the one who's laying by your side that
tonight
Ima catch you in my arms girl when your falling deep
As long your dreaming about me

I wish that your love could fall down like rain
Everything you are is everything that a man could ever
want girl
Baby I could just hope you'll love me the same
I wont make a move girl I'll just watch you sleep
Hoping your deaming about about me
Eh eh eh eh eh eh eh eh eh eh (yeah, yeah)
Hoping your deaming about about me(hoping your
dreaming)
Eh eh eh eh eh eh eh eh eh eh(whoah)
Hoping your deaming about about me

Touching your face
Touching your hair
When you wake up I'll be standing right there
Hoping your dreaming about me

Holding your head so you don't have to fear
Hoping you know how much I really care
And I hope your dreaming about me
I wish your love could fall down like rain
Cause everything you are is everything a man could
ever want
Baby I just hope you'll love me the same
I wont make a move girl I'll just watch you sleep
Hoping your dreaming about me

Oh girl I hope that your dreaming
And when you close your eyes
I hope that your dreaming
Hoping your dreaming about me

Oh girl I hope that your dreaming
And when you close your eyes
I hope your dreaming
Hoping your dreaming about me
Hoping your dreaming about me
Hoping your dreaming about me
